Field Trips
May 6 Safety Center
May 7 Discovery World
- Students need bagged lunch.
May 20 Green Meadows
- Students need bagged lunch and to be dressed for weather.

The temperature in the classroom can still be a little chilly, please send a sweatshirt or sweater with your child.

Update
We are waiting for the danger of frost to pass before we start planting our butterfly garden.

Science
Unit Fabric
In “Fabrics All Around”, students will discover:
Fabric has observable properties.
Fabrics can be compared and sorted by their properties.
Fabrics are made from different materials.
Many fabrics are made by weaving threads together.

Students will communicate how:
Fabrics are put together,
Fabrics can be taken apart
Fabrics can be fastened together with thread.
